Subject: Status of Blanket ROW Permit - City of Franklin
Attachments: Blanket ROW Request_City of Franklin DPW_August 20 2018.pdf

Carolyn

Per our discussion, I attended the City Council Meeting for the City of Franklin the evening of Monday August 20, 2018. The purpose of the meeting was to present to the Board of the Department of Public Works our request to obtain a blanket ROW permit for ROW's in the immediate vicinity of the Former Amphenol Facility located at 980 Hurricane Road, Franklin, IN. The City agreed to approve the blanket ROW permit at the meeting, even though I explained at the meeting the exact locations were not known at this time nor was the schedule established for the activities. I also explained that we were working closely with the USEPA regarding the final scope of work and anticipated that the work activities would be initiated within the next 2 months. As a condition of the approval, they indicated I needed to complete the standard ROW permit application and supply proof of the necessary insurance and bonding requirements. We are in the process of getting this application finalized and have requested the COI and Bond information for the project.

The information I supplied the City of Franklin during the meeting is attached for your reference. Please contact me with questions or if you need additional information regarding this request.

Sincerely,

Bradley E. Gentry, LPG
